**PHYSIOLOGY,
ANATOMY &
GENETICS**

Away Day

Oxford University Museum of Natural History

Tuesday 3rd July 2018, 9am-3.30pm

All academic staff, support staff, emeritus, fellows, graduate students, and research scientists welcome!

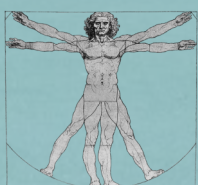

Join your colleagues for a day of talks and presentations, and lunch on the Museum's spectacular gallery, in order to celebrate our joint successes, from across the Department.

Members of the Department and their families are also invited to our annual Garden Party at Merton College from 4pm, following the day's events. The Garden Party is a perfect opportunity to network, in a relaxed setting with bubbly and maybe even some sunshine!

Time

Event

09.00	Arrival and coffee
09.30	David Paterson: A year of progress
10.00	Stephen Goodwin: Pint of science
