

Date and Time	Speaker and Title	Venue
17 January Tuesday 4pm	Professor Tamas Revesz University College, London	Lecture Theatre Le Gros Clark Building
	Progression of neuropathology in Parkinson's Disease	
7 February Tuesday 4pm	Dr Oliver Bandmann Sheffield Institute of Translational Neuroscience, University of Sheffield	Lecture Theatre Le Gros Clark Building
	New strategies to identify disease – modifying treatment for Parkinson's Disease	
12 March Monday 4pm	Dr Huaibin Cai National Institute on Ageing, NIH, USA	Lecture Theatre Le Gros Clark Building
	Molecular determinants of dopaminergic neuron loss in Parkinson's Disease	
24 April Tuesday 4pm	Dr Kostas Vekrellis Biomedical Research Foundation, Athens, Greece	Lecture Theatre Le Gros Clark Building
	In vivo assessment of alpha-synuclein secretion. Possible therapeutic implications in Parkinson's Disease	
10 May Thursday 4pm	Dr Clive Svendsen Cedars-Sinai Regenerative Medicine Institute, Los Angeles, USA	Lecture Theatre Le Gros Clark Building
	"Disease in a dish": A new era for modelling human neurological disorders with stem cells	
19 June Tuesday 4pm	Professor Birgit Liss Institute of Applied Physiology, University of Ulm, Germany	Lecture Theatre Le Gros Clark Building
	Distinct functions and fates of dopamine midbrain neurons in health and Parkinson's Disease - a tale of two ion channels?	
3 July Tuesday 4pm	Dr Tiago Outeiro Cell and Molecular Neuroscience Unit, Faculdade de Medicina de Lisboa, Portugal	Lecture Theatre Le Gros Clark Building
	From the baker to the bedside: unraveling the molecular basis of Parkinson's Disease	
18 September Tuesday 4pm	Professor Kevin Morgan Faculty of Medicine & Health Sciences, University of Nottingham	Library Sherrington Building
	Biomarker discovery in Alzheimer's disease-myth or reality?	
16 October Tuesday 1pm	Professor Uwe Walter Department of Neurology, University of Rostock	Seminar Room B, West Wing level 6, John Radcliffe Hospital
	Value of transcranial sonography in the diagnosis and treatment of Parkinson's disease	

Oxford Parkinson's Disease Centre Seminar Series 2012

Date and Time	Speaker and Title	Venue
16 October Tuesday 4pm	Dr Tilo Kunath Centre for Regenerative Medicine, University of Edinburgh Modelling synucleinopathies with human pluripotent stem cells	Library Sherrington Building
13 November Tuesday 4pm	Professor Masud Husain Nuffield Department of Clinical Neurology and Department of Experimental Psychology, University of Oxford Inattention, Impulsivity and Apathy in Parkinson's disease	Library Sherrington Building
4 December Tuesday 4pm	Dr Nick Allen School of Biosciences, Cardiff University Stem cell-derived neuronal models to study Huntington's disease	Lecture Theatre, Dept of Pharmacology
13 December Thursday 12pm	Professor Ola Söderberg Department of Immunology, Genetics and Pathology, Uppsala University Analysis of signaling network activity at a single cell level	Library Sherrington Building
